c. Raised the question of changing the name of O/PC to the Office of Foreign Programs. After some discussion, the Director stated that (1) he believed the various offices of the Agency as a whole should go to numerical rather than letter designations; (2) possibly each office should be assigned a block of numbers or each office be assigned a basic number which could appear in any combination denoting this basic number. After some further discussion, Messrs. Wolf, Wisner and Becker undertook to look into this matter.
